- **Containerization:** Docker, Kubernetes, EKS
- **CI / CD:** GitLab, GitHub, Jenkins, Bitbucket
- **Configuration Management:** Ansible, Chef
- **Frameworks:** React, Serverless
- **Infrastructure as Code:** Terraform, AWS CloudFormation
- **OS**: Windows, Linux (RHEL/CentOS)

WORK EXPERIENCE

MSTL INC.   Los Angeles, CA
Cloud Advisory Analyst   February 2019 – Present

Project Experience

Cloud Automation Engineer
- Migrated AWS resources from manual creation to CloudFormation templates which improved efficiency by 90%
- Drastically improved workflow by engineering a smart deployment system for built code that deploys only changed artifacts in Ansible and Jenkins
- Take over and maintain a system status prototype using Serverless framework and React to display the status of tools and applications used by case workers
- Work on API development for system status prototype using API Gateway, Apigee, and Postman connecting front-end and back-end services
- Design environment architecture diagrams in Visio and draw.io for senior management to provide clear application and security parameters to show the existing infrastructure and cloud costs associated with them
- Remediate existing vulnerabilities on all environments and servers, removing over 2000+ vulnerabilities by removing unused Java on affected EC2 instances

Application Support Engineer
- Responsible for 100% of Chef automation runs to deploy Oracle WebLogic in over 6 environments and 30+ servers accounting for 12% of program deliverables and the delivery of $600,000 in revenue from client contract
- Created new Ansible playbooks to automate the start/stop process for WebLogic Node Manager
- Spearheaded new documentation for new project joiners: Chef basics, initial setup of Chef on servers, troubleshooting possible issues, and spreadsheets to track completion of environment readiness

Complete Copy Systems   Los Angeles, CA
Financial Analyst   June 2017 – February 2019
- Held accountable for the quarterly preparation, review, and filing of corporate financial statements with the SEC (10-Qs, 10-Ks, 8-Ks) including XBRL tagging, cross-linking, (MD&A) sections and composition of earnings call transcript for the CEO and CFO
- Lead analyst and writer for quarterly board packages that was presented to C-Suite and Board of Directors that summarized all company activity and operational highlights during the quarter
- Prepared and published weekly, monthly, quarterly, and annual financial reports in Excel/VBA, including Gross Box Office Sales, Performance Scorecards, Cash Flow Forecasts, and Yearly Budgeting Reports

EDUCATION

University of California, Riverside   Riverside, CA
B.S. in Business Administration; Finance Concentration - Cum Laude   June 2017

CERTIFICATION & INTERESTS

- **Certification:** AWS Certified Cloud Practitioner, AZ-900: Microsoft Fundamentals
- **Interests**: eSports, Snowboarding, PC Building
